# A Handbook for Integrated Water Resources Management in Basins

|

## Description / Abstract

This handbook is written for basin managers, government officials and all their partners involved in water resources management. It provides practical guidance for improving the governance of freshwater resources, in particular through effective application of the integrated water resources management (IWRM) approach in lake and river basins, and aquifers. The handbook complements IWRM efforts already underway or planned at national and international levels.

## Publication year

2009

## Publisher

Global Water Partnership - GWP International Network of Basin Organizations - INBO

## Keywords

Guidelines, Manuals and Handbooks

## Thematic Tagging

Water services
