

# The Governance of Water Services in Europe

ı

## **Description / Abstract**

To help stakeholders better understand the governance of water services in Europe, the report provides a snapshot of the 2020 situation in the 29 EurEau member countries.

This report provides a simple but comprehensive overview of water governance models in 29 European countries, illustrating the diversity of management models, organisational structures, tasks and responsibilities of the players involved at the different levels of governance (EU, national, regional or local).
