Description / Abstract

In 2021, GWP Central America has supported Panama's Ministry of Environment (MiAmbiente) in the consultation process for the elaboration of an IWRM Action Plan (PAGIRH). This Plan is based on the priorities identified during the measurement of SDG 6.5.1, which was carried out in multi-stakeholder processes during 2019.

The result is an Action Plan consisting of 35 action points covering all four of the IWRM dimensions. The action planning process was supported by the SDG 6 IWRM Support Programme.
